## NO ORDINARY FENCE POST

**DuraPost provides a stylish, secure and strong framework designed to work with panels and boarding.**

Manufactured from galvanised steel in the UK, our innovative design and matching accessories help form a secure fencing system built to surround and protect the fence, making it last.

### YOUR GARDEN, YOUR WAY

*Choose from four different colour options: anthracite grey, olive grey, sepia brown or galvanised steel.*

# FENCE POSTS BUILT TO LAST

**Designed by industry experts and trusted by homeowners and professionals**

DuraPost is a great alternative to a timber or concrete fence posts. Built from galvanised steel, it's lighter while offering both durability and strength. It has been designed to work with virtually all types of fence panels and boards.

## RELIABLE

Quality and peace of mind is important to us. It's why we have tested DuraPost in winds of up to 110mph and offer up to a 25-year guarantee\*. We're confident they can stand up to the task.

## VERSATILE

DuraPosts work with virtually any type of fencing, so you can tailor a solution to suit you and your garden.

*Details matter: Colour matched screws are available to purchase separately.*

## HASSLE FREE

DuraPosts are easy to fit, taking roughly half the time to fit than some traditional fence posts. They're maintenance-free too.

## STRONG AND SECURE

DuraPost's pre-drilled holes mean fence panels can be securely fixed, unlike concrete posts that allow panels to be lifted up and out.

# EASIER TO INSTALL THAN TRADITIONAL POSTS

**DuraPosts are so easy to handle, they can be easily installed by one person.**

If you're fitting pre-made panels yourself, simply dig the hole and set your first DuraPost in with FENCEMATE Post Concrete. Secure your gravel board into position with colour-matched screws. Fit your pre-made fence panel to the post and screw into place. Position the second DuraPost, check alignment and set with Post Concrete. ## CASE STUDY

**Damien needed to combine style with practicality and strength for this stunning garden in Baildon, West Yorkshire.**

"Timber posts just wouldn't have lasted due to the exposure to strong winds," he explains. DuraPost was the obvious choice. "In terms of look and ease of installation, they were just a dream to use."

**"THEY ARE QUITE SIMPLY A GAME CHANGER AS FAR AS FENCING CONSTRUCTION GOES. THE LOOK, FEEL AND STRENGTH... ALL FOR JUST A FEW MORE POUNDS THAN A CONCRETE POST. IT'S A NO-BRAINER."**
